Re: 2021-22 Second Interim – All Funds

## BUDGET NEWS

The Governor’s 2021-22 Budget was approved in June 2021. The adopted state budget was similar in nature to the May Revise proposal, with small conservative changes as to how the one-time funds would be dispersed (specific grants, general fund unrestricted one-time funds, Preschool/TK funding, Expanded Learning Opportunities, Educational Effectiveness Grant, etc.). The Governor’s 2022-23 proposed budget includes an additional contribution of \$3.1 billion to public schools in the same form of one-time funding toward “Universal PreK”, expanded learning, extended day, summer school programs, universal meals, etc. The STRS implemented rates stand to be the same as proposed, while CalPERS has announced that rates may decrease. The CalPERS board anticipates voting on rates by the April board meeting. Local educational leaders can look forward to increased revenues that will help expand access to high-quality educational and support services to California’s six million students, including programs to accelerate and enrich academic learning. The significant investments in the current state budget—namely, the increased ongoing education spending obligations—can create out-year risks for the state and local leaders if the economic assumptions underlying the approved budget prove tenuous. Districts should incorporate local factors into building their budgets. The Governor’s office, Fiscal Crisis and Management Assistance Team (FCMAT), and School Services of California are all advising school districts to budget conservatively and cautiously when forecasting future budgets.

The Larkspur-Corte Madera School District (LCMSD) has gathered feedback from numerous stakeholders, such as Marin County Office of Education (MCOE), FCMAT, and Fiscal Advisory Committee during the past couple of months to help guide recommendations presented to the Board. District staff are continuously updating the 2021-22 current budget and have developed a conservative budget. The District used recommendations from School Services of California Governor’s Workshop, FCMAT, local governmental agencies and community stakeholders to develop the 2021-22 First Interim Budget and the Multi Year Projections (MYPs).

### *Message from the Marin County Office of Education on Reserves/Reserve Cap*

The Common Message continues to reinforce the need for reserves in excess of the minimum reserve for economic uncertainty (3%). The state-required reserve for economic uncertainty represents only a few weeks of payroll for most districts. The Government Finance Officers Association recommends reserves, at minimum, equal to two months of average general fund operating expenditures, or about 17%-20%. The current statewide average for school district reserve levels for Unified School Districts is 18.82%, Elementary School Districts is 22.70%, and High School Districts is 17.34% (data used from 2019-20 final budgets). In determining an

appropriate level of reserves, districts should consider multiple external and local factors including but not limited to:

- State and federal economic forecasts and volatility
- Unknown impacts of federal tax reform on state revenue
- Forecasted revenue changes versus projected expenditure increases in budget and multi-year projections
- Ending balance impact of various district enrollment scenarios
- Cash flow requirements and the relationship between budgeted reserves and actual cash on hand
- Savings for future one-time planned expenditures
- Protection against unanticipated/unbudgeted expenditures
- Credit ratings and long-term borrowing costs

A prudent reserve affords districts and their governing boards time to thoughtfully identify and implement budget adjustments over time. Inadequate reserves force districts to react quickly, often causing significant disruption, sometimes unnecessarily, to student programs and employees.

- The unknown future financial implications of COVID-19 can greatly affect the district's already low reserve level. LCMSD is a perfect example of what can happen to a district with low reserve levels and the impact of slight revenue shifts or large expenditure hits. In 2018-19 the District adopted approximately \$1.147M in budget cuts (approximately \$817,000 cuts within all personnel groups, and \$330,000 in operational expenses). LCMSD is fortunate to utilize Fund 35 (School Facilities Fund) to purchase PPE, air purifiers for all staff members, technology for students and staff, furniture to shift classrooms to meet CDC/health department guidelines, and installation of an ionization filtration system. The District applied one-time funding at the federal and state level to fund current expenditures that were fundamental in getting students back to in-person instruction, which in turn increased the District's reserve level and contributed in the District being able to approve a multi-year settlement agreement with both bargaining groups. MCOE has commended the LCMSD Board for developing the cost reductions that accompany the recently approved settlement agreements.

## ASSUMPTIONS

The District used the following assumptions while building the 2021-22 Budget and the Multi-Year Projections (2021-22 through 2023-24):

    - The District is projecting moderate property tax increases in out years due to the unknown effects of COVID-19

- LCFF Revenue Assumptions: From 2021-22 through 2023-24
  - Significant decrease in enrollment in 2022-23 (drop of 192.43 ADA) and then projecting flat enrollment for the out years
  - 96% ADA to enrollment
  - COLA to LCFF Base:
    - 2021-22 5.07%

  - 2022-23 \$34.54 per ADA
  - 2023-24 \$35.79 per ADA
- Federal revenues projected with current 2021-22 allocation and 12% reduction through 2023-24
  - As of June 2, 2021, no one-time funding budgeted in MYP except for ESSER III funds in 2021-22
- Special Education projected to be flat funded from 2021-22 to 2023-24

    - PERS: 22.91% in 2021-22, 26.10% in 2022-23, 27.10% 2023-24

## GENERAL FUND

Detailed Key Budget Assumptions used to prepare the 2021-22 budget are attached to this narrative, followed by factors to consider for the two subsequent fiscal years. They include all of the expenditures supporting the District's strategic priorities and draft Local Control Accountability Plan (LCAP).

### *Local Control Funding Formula (LCFF) Revenues: \$13,640,547*

The State funded the LCFF at a 5.07% Cost of Living Adjustment (COLA). LCFF funding eliminated; (1) the prior funding formula known as revenue limits, (2) the deficit factor, and (3) collapsed almost all state categorical revenue into the LCFF formula. The District has used the (FCMAT) LCFF calculator, with the attached budget assumptions, to calculate revenue estimates for 2021-22 through 2023-24. The District is projected to receive \$13,640,547 in LCFF revenue for 2021-22, all funds are attributed to the District's excess property tax and some state funds (\$1,025,408).

Districts are now known as "LCFF funded" or "Basic Aid." Based on the assumptions used, projections indicate that the District will be Basic Aid funded for 2021-22 through 2023-24.

### *Federal Funding: \$704,487*

Federal funding consists of \$222,119 in Special Education Funding, \$376,674 ESSER Funding, \$105,694 in Elementary and Secondary Education Act (ESEA; Title I, II, III and IV) funding.

### *State Funding: \$2,162,320*

The implementation of LCFF has reduced the number of state categorical programs. The District's remaining state funding is limited to Lottery funding of \$432,536 (increase due to budgeting at fully funded levels), Mandated Cost Block Grant of \$48,553, Classified School Employees Summer Assistance Program of \$33,206, other state funding of \$21,851 and state mental health funding of \$142,664 (increase due to some one-time funds of \$96,527). The 2021-22 state budget also apportioned one-time funding in the 2021 Educator Effectiveness Grant of \$305,637 and the Expanded Learning Opportunity Program of \$94,050.

Another change in State funding comes in the form of an accounting change. The STRS payments that the State makes "on behalf" of school district employees is now recorded as an expense, and recorded as equal state revenue as well. There is no net impact of this change in accounting (an \$1,018,124 increase to both State Revenue and STRS expense), with the

exception of a slightly increased reserve for economic uncertainties, which is calculated based upon total expenditures.

*Local Funding: \$6,474,470*

Parcel tax revenue of \$3,500,117 has been budgeted based upon preliminary estimates of the approved Measure A at \$873.14 per parcel for the 2021-22 fiscal year.

SPARK has updated its contribution to the General Fund to \$1,209,106, based upon current budget development meetings.

Lease and local revenue of \$900,196 is included based upon current leases, consisting primarily of the long-term lease to Marin Primary and Middle School, facility use agreements and memorandums of understanding with other school districts/entities.

The local Special Education Local Plan Authority (SELPA) chapter has updated its contribution to the General Fund to \$865,051, based upon current budget development meetings and average daily attendance reporting.

*General Fund Expenditures*

Employee salaries and benefits equal 84% of the District's expenditures. The remaining 16% of the budget funds goes to contracted services, supplies and materials, capital outlay, and other expenses. Elementary school districts are required by law to spend at least 60% of total expenditures on classroom-related expenses, including teachers and student support staff. The District maintains a percentage well over 60%.

Salary and benefit projections include current salary agreements, including step and column placements, proposed and implemented increases to STRS, PERS, and State Unemployment Insurance, and Workers' Compensation rates. Any new hire open positions not filled at the time of adoption and/or budget cycle are budgeted for a worst-case scenario at the highest salary placement allowed per bargaining unit contracts.

## OTHER FUNDS

The Cafeteria Fund (Fund 13) is budgeted based on historical operations using current reimbursement rates, indirect cost rates, and anticipated food services contract rates for 2021-22. The District started the process of reviewing the current food program and future programs at the start of the 2017-18 school year. A significant amount of time was invested by District staff and the Health and Wellness Committee to examine the current program. The District will extend the agreement for one more year with the current food service management company.

The Bond Fund budget (Fund 21) previously monitored the three main 2014 Measure D projects. All projects were completed in September of 2017. There are no expenditures included in the proposed budget due to all bond proceeds being spent and closed out. When the accounting records are closed for 2021-22, the fund will be re-categorized as facilities funds for parks and recreation agreements and District-wide facilities projects reimbursed by the Office of Public-School Construction (OPSC).

The Developer Fee Fund (Fund 25) is funded by Level I Developer Impact Fees. The rates for these fees are set by the State Allocation Board and enacted by the District after performing a justification study. The District’s current rates of \$3.36 per sq. ft. for residential and \$0.54 per sq. ft. for commercial properties were approved in April of 2014. Developer fee revenue decreased from 2012-13 through 2016-17. The District is estimating another slight decrease in developer fees, but is hopeful that they come in flat from the prior year, as no significant development projects have been approved or initiated.

**Part I - General Administrative Share of Plant Services Costs**

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

**A. Salaries and Benefits - Other General Administration and Centralized Data Processing**

- 1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)  
(Functions 7200-7700, goals 0000 and 9000) 769,641.00
- 2. Contracted general administrative positions not paid through payroll
  - a. Enter the costs, if any, of general administrative positions performing services ON SITE but paid through a contract, rather than through payroll, in functions 7200-7700, goals 0000 and 9000, Object 5800. \_\_\_\_\_
  - b. If an amount is entered on Line A2a, provide the title, duties, and approximate FTE of each general administrative position paid through a contract. Retain supporting documentation in case of audit.

**B. Salaries and Benefits - All Other Activities**

- 1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)  
(Functions 1000-6999, 7100-7180, & 8100-8400; Functions 7200-7700, all goals except 0000 & 9000) 17,800,374.75

**C. Percentage of Plant Services Costs Attributable to General Administration**

(Line A1 plus Line A2a, divided by Line B1; zero if negative) (See Part III, Lines A5 and A6) 4.32%

**Part II - Adjustments for Employment Separation Costs**

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

**A. Normal Separation Costs (optional)**

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. 0.00  
Retain supporting documentation.

**B. Abnormal or Mass Separation Costs (required)**

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero. 0.00

**Part IV - Carry-forward Adjustment**

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

<b>A. Indirect costs incurred in the current year (Part III, Line A8)</b>	<u>1,337,618.63</u>
<b>B. Carry-forward adjustment from prior year(s)</b>	
1. Carry-forward adjustment from the second prior year	<u>52,606.01</u>
2. Carry-forward adjustment amount deferred from prior year(s), if any	<u>0.00</u>
<b>C. Carry-forward adjustment for under- or over-recovery in the current year</b>	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect cost rate (6.89%) times Part III, Line B19); zero if negative	<u>0.00</u>
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of (approved indirect cost rate (6.89%) times Part III, Line B19) or (the highest rate used to recover costs from any program (5.01%) times Part III, Line B19); zero if positive	<u>0.00</u>
<b>D. Preliminary carry-forward adjustment (Line C1 or C2)</b>	<u>0.00</u>
<b>E. Optional allocation of negative carry-forward adjustment over more than one year</b>	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward adjustment is applied to the current year calculation:	<u>not applicable</u>
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward adjustment is applied to the current year calculation and the remainder is deferred to one or more future years:	<u>not applicable</u>
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward adjustment is applied to the current year calculation and the remainder is deferred to one or more future years:	<u>not applicable</u>
LEA request for Option 1, Option 2, or Option 3	<u>1</u>
<b>F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if Option 2 or Option 3 is selected)</b>	<u>0.00</u>

Approved indirect cost rate: 6.89%  
Highest rate used in any program: 5.01%

**7. CRITERION: Facilities Maintenance**

**STANDARD:** Identify changes that have occurred since first interim projections in the projected contributions for facilities maintenance funding as required pursuant to Education Code Section 17070.75, or in how the district is providing adequately to preserve the functionality of its facilities for their normal life in accordance with Education Code sections 52060(d)(1) and 17002(d)(1).

## Key Guidance Based on Governor’s Budget Proposal

On January 10, 2022, Gov. Gavin Newsom released the proposed state budget. The proposal includes a 5.33% cost of living adjustment (COLA) to the Local Control Funding Formula (LCFF), as well as a 5.33% COLA to special education and all other programs outside the LCFF.

The proposed budget includes an additional contribution of \$3.1 billion to the Public School System Stabilization Account. The 2021-22 contribution triggered the cap on district reserves effective with the 2022-23 Adopted Budget. There is insufficient information to determine local impact of the one-time proposals, and they therefore are listed for reference only. Other funding priorities in the Governor’s Proposed Budget are:

- \$1.2 billion to amend the LCFF calculation to allow school districts to utilize the greater of current year, prior year, or the average of three prior years’ ADA
- Additional \$3.4 billion, for a total of \$4.4 billion ongoing for the Expanded Learning Opportunities Program (ELO-P)
- \$650 million for universal access to school meals
- \$640 million (Prop. 98 “rebenched”) for transitional kindergarten (TK) expansion
- \$383 million to add one certificated or classified staff to every TK class
- \$500 million to increase the special education base funding formula
- \$1.5 billion (one-time) for college and career pathways
- \$500 million (one-time) for dual enrollment
- \$1.5 billion (one-time) to support electric buses
- \$1.3 billion (general fund one-time) to support the School Facilities Program

## Independent Study

Average daily attendance (ADA) has declined by both enrollment declines as well as a lower rate of attendance per enrolled pupil due to COVID-19 quarantines. The Budget Act of 2021-22 encouraged districts to enroll students in independent study as an alternative method of providing instruction to students and generating attendance due to a COVID related exposure, illness, or parental preference. However, while some flexibility was granted for the time required to obtain a fully signed agreement and the minimum amount of time required to participate in independent study to generate ADA, no flexibility was provided to attendance accounting rules for quantifying time value of work. The 2022-23 budget proposes a change to traditional independent study attendance accounting, which will allow LEAs to continue independent study as a viable option to count instructional time for student work completed remotely. LEAs can choose between traditional independent study and course-based independent study to create quality short- and long-term remote instruction models that best serve the needs of their students.

To streamline the administration of these programs, the budget:

1. Allows documented participation in synchronous instruction to count for instructional time in traditional independent study, in addition to student work product.
2. Provides continued flexibility on the timeline for an LEA to collect a signed independent study plan for students who are projected to participate in independent study for fewer than 15 days.
3. Eliminates the requirement that all persons who have direct responsibility for providing assistance to an independent study student sign the independent study plan and clarifies that a certificated employee(s) designated as having responsibility for the special education programming of the pupil, as applicable, must sign the plan.

## **Local Control Funding Formula**

The budget proposes a cost-of-living adjustment (COLA) of 5.33% to the LCFF, with total LCFF funding increasing to \$70.5 billion inclusive of the additional transitional kindergarten students that become eligible for LCFF funding in 2022-23. The budget also proposes an additional \$383 million to support the lower pupil to adult ratios required in transitional kindergarten. These additional funds will be allocated through the LCFF as an add-on to the LCFF.

Declining enrollment projections due to ongoing demographic trends were exacerbated over the last two years due to the COVID-19 pandemic. Under current law, the LCFF for school districts is funded on the greater of current or prior year ADA. The budget proposes to permanently alter the formula from the greater of current or prior year ADA, to the greater of current year, prior year, or average of three prior years’ ADA, which would allow an extended period of time to adjust budgets for the significant ADA declines most districts have realized. Districts will be funded on the option that provides the highest revenue. Charter schools and county offices of education are not afforded the prior year guarantee and are funded on current year ADA. The budget does not propose providing the declining enrollment formula adjustment for charter schools or county offices of education; however, the Governor acknowledges the need for further review.

All LEAs should develop multiple scenarios using all available options including the proposed three-year average. LEAs that are prepared for both best- and worst-case budgets are better able to adapt for economic uncertainty.

# Request for Allowance of Attendance Due to Emergency Conditions: Form J-13A

LEAs that experienced a COVID-19 related material decrease in attendance or school closure prior to September 1, 2021, may submit a Request for Allowance of Attendance Due to Emergency Conditions (Form J-13A) to mitigate losses of ADA and receive instructional time credit as usual.

AB 130 introduced significant changes to the Form J-13A process for material decreases in attendance and for school closures occurring between September 1, 2021 and June 30, 2022. Chief among the changes is a requirement to submit a plan with all J-13A requests to provide independent study during school closures and material losses in attendance that meet the following requirements:

- Independent study is offered to any student impacted within 10 days of the first day of a school closure or material decrease in attendance. Students with exceptional needs shall receive the services identified in their IEP and may participate in an independent study program.
- Require reopening for in-person instruction as soon as possible unless prohibited by the local or state health officer.
- Include information regarding establishing independent study master agreements in a reasonable amount of time.
- For school closures or material decreases in attendance for 15 days or less, or if an LEA has a waiver of the requirement to offer independent study, the plan is not required to include:
  - Procedures for tiered reengagement strategies
  - A plan to provide opportunities for daily synchronous instruction for students in in grades TK/K-3
  - A plan to provide opportunities for both daily live interaction and at least weekly synchronous instruction for students in grades 4-8
  - A plan to provide opportunities for at least weekly synchronous instruction for students in grades 9-12, or
  - A plan to return to in-person instruction within five instructional days if requested by the parents or guardians

AB 130 as amended by AB 167 amended education code to restrict J-13A requests to mitigate losses of attendance-based funding or for attendance credit due to COVID-19 related school closures or material decreases in attendance related solely to:

- Students in community day schools
- Students with exceptional needs whose IEP does not specifically provide for participation in independent study

- Staff shortages meeting the following conditions:
  - The LEA is unable to provide in-person instruction to students due to staffing shortages caused by staff COVID-19 exposure quarantine or infection, pursuant to local or state public health guidance.
  - For certificated staff shortages, the LEA has exhausted all options for obtaining staff coverage, including using all certificated staff and substitute teacher options, and has consulted with their county office of education and the CDE prior to the LEA’s final decision to close, and has determined that staffing needs cannot be met through any option.
  - For classified staff shortages, the LEA has exhausted all options for obtaining staff coverage, including using all staff options, and has consulted with their county office of education and the CDE prior to the LEA’s final decision to close, and has determined that staffing needs cannot be met through any option.

LEAs may claim apportionment attendance through the provision of independent study for all other COVID-19 related disruptions to in-person learning. LEAs may still use the J-13A process to request instructional time credit to meet the annual day and minute requirements and avoid audit penalties if LEAs certify to offering independent study to all eligible students during the school closure. CDE has published comprehensive [FAQs](#) for LEAs to reference.

## New Plan Requirements

AB 130 and AB 167 created multiple new planning requirements for the 2021-22 fiscal year. In addition to the revised LCAP requirements described in the LCAP section, the following plans must be developed or updated by LEAs this year:

Plan	Deadline	Required Template?	Approval	Additional Information
<b>ESSER III Safe Return to In-Person Instruction</b>	Every 6 months after initial assurances	Yes, for initial assurances, no thereafter	Post on website	<a href="#">CDE website</a>
<b>A–G Completion Improvement Grant</b>	4/1/22	No	Present at public board meeting, adopt at subsequent board meeting	E.C. 41590
<b>Prekindergarten Planning Grant</b>	6/30/22	Optional (Includes data CDE will require)	Board adopts at public meeting	<a href="#">CDE Website</a>
<b>Expanded Learning Opportunities Program</b>	Before beginning program operation	Yes	Board adopts at public meeting. Post on website.	<a href="#">CDE website</a>

## Planning Factors for 2021-22 and MYPs

Key planning factors for LEAs to incorporate into their 2021-22 second interim reporting and multiyear projections are listed below and are based on the latest information available.

Planning Factor	2021-22	2022-23	2023-24

9-12 per ADA	\$47.84	\$50.39	\$52.21

After the release of the Governor's Proposed Budget, the Legislative Analyst's Office updated their COLA forecast to 6.18%. However, the advice at this point is that the 5.33% estimated COLA be used for second interim reports.

## Local Control Accountability Plan

At their November 2021 meeting the State Board of Education (SBE) adopted a revised LCAP template and action (expenditure) tables, and a template for the mid-year one-time supplement to the annual update. The Budget Overview for Parents template has also been updated to align with changes to the LCAP. The templates can be found on the CDE website at <https://www.cde.ca.gov/re/lc/>.

The changes to the LCAP address new requirements imposed by AB 130 and AB 167 including carryover calculation requirements and a demonstration of how the additional (65%) concentration grant add-on funding is being used.

Also, the LCAP template instructions, which LEAs are legally required to follow, have been revised to indicate the following: "Note: For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The

action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.”

The new carryover calculation must be completed as part of the annual update this year for incorporation into 2022-23 adopted LCAPs. In light of the changes to the LCAP instructions and the shifts in programming caused by COVID, LEAs should be closely examining their actions and expenditures to date, and plans for the remainder of the fiscal year, to assess progress toward meeting the increased services requirement in 2021-22.

LEAs are required to present the supplement to the annual update at a regularly scheduled board meeting on or before February 28, 2022. LEAs can use the supplement as an opportunity to preview for educational partners any changes or additions to planned actions and services due to changing circumstances, funding and rules. This will lay the groundwork for inclusion of such changes and additions in the annual update as part of the 2022-23 adopted LCAP.

## Reserves / Reserve Cap

Significant increases projected for state revenue come with strings. For the first time, with the 2021-22 fiscal year, all the conditions are met that trigger the requirement on district reserve caps. Senate Bill (SB) 751, codified in Education Code Section 42127.01, set the threshold for triggering the cap when state reserve reaches 3% of the K-12 portion of Prop. 98 in that same year. Beginning in 2022-23 for the budget adoption cycle, district reserves will be capped at 10% using the assigned/unassigned ending balance within the general fund and special reserve funds. Basic aid districts and small school districts with fewer than 2,501 ADA are exempt from the requirement.

Districts should begin to anticipate whether their 2022-23 ending assigned and unassigned reserves in the general fund 01 and fund 17 combined are no more than 10% of annual expenditures. In the event that a district is not exempt from the reserve cap, a district has several options available locally to ensure compliance:

- Commit reserves rather than leaving reserves in assigned or unassigned – a commitment requires board action through a resolution adopted before the end of the fiscal year
- Transfer reserves to funds other than Fund 17
- Contribute to restricted resources within the General Fund

A county superintendent of schools may grant a school district under its jurisdiction an exemption from the requirements of subdivision (a) in SB 751 for up to two consecutive fiscal years within a three-year period if the school district provides documentation indicating that extraordinary fiscal circumstances, including, but not limited to, multiyear infrastructure or technology projects, substantiate the need for a combined assigned or unassigned ending general fund balance that exceeds the cap limits. Before assuming that a waiver will be approved, districts should exhaust all efforts locally to comply with the law. If a pathway is not available locally begin conversations with your COE sooner rather than later. A district shall not adopt a budget that does not comply with the 10% provision.

## Early Childhood Education

The Governor's 2022-23 budget proposal includes additional investments in early childhood. Guided by the Master Plan for Early Learning and Care, the governor proposes the following:

- 5.33% COLA
- Universal Transitional Kindergarten (UTK)

As described in the Early Childhood section of the proposal:

- \$639.2 million of general fund is proposed to expand eligibility for transitional kindergarten to all children turning 5 years old between September 2 and February 2 beginning in 2022-23. These funds will increase the Prop. 98 guarantee through the process of rebenching.
- \$383 million Prop. 98 general fund to add a staff to every transitional kindergarten class, reducing pupil to adult ratios to 12:1 to align more closely with the State Preschool Program. The governor proposes an add-on to the LCFF of \$2,813 for every TK ADA (greater of current of prior year), subject to the annual COLA, to fund the lower student-to-staff ratio.

The budget proposal clarifies language requiring at least 10 percent of a part-day California state preschool program contracting agency's funded enrollment shall be reserved for children with exceptional needs, as defined by Section 8205, and serve those children.

- The department shall review data on compliance and provide technical assistance to California state preschool program contracting agencies to assist them in meeting this requirement.
- Agencies shall be fully funded for 10 percent of funded enrollment, to ensure funding is available to enroll children with exceptional needs within the 10 percent set-aside at any point during the fiscal year. Agencies not meeting the requirement to fill 10 percent of funded enrollment with children with exceptional needs shall conduct community outreach to special education partners to recruit additional children with exceptional needs into their programs.
- Beginning July 1, 2025, any agency not meeting the requirement pursuant to subparagraph (1) may be put on a conditional contract as defined in Section 8314 unless they have applied and been approved for a waiver pursuant to subparagraph (ii).
- (ii) The Superintendent shall create an ongoing waiver process for agencies not able to meet this requirement. (3) Children with exceptional needs attending California state preschool programs shall be educated in the least restrictive environment in accordance with 20 U.S.C.

## California State Preschool Program (CSPP)

As described in the K-12 Education section of the proposal:

- \$309 million, \$197.8 million Prop. 98 general fund and \$110.6 million non-Prop 98 general fund, to increase CSPP adjustment factors for children with disabilities and dual language learners.
- These adjustment factors are intended to fund new CSPP requirements outlined below:
  - Programs must serve at least 10% of children with disabilities.
  - Provide additional supportive services for dual language learners.
- CSPP eligibility will expand from 12 months to 24 months.
- Children with an IEP will be categorically eligible for CSPP.
- CSPP can serve 2-year-old children if all eligible 3- and 4-year-olds are served.
- \$166.2 million Prop. 98 general fund increase for CSPP to cover CSPP rate increases that began January 1, 2022.

The 2021-22 Child Care and Development Contract Changes for Preschool Contractors can be found [here](#).

## Inclusive Early Education Expansion Program (IEEEP)

A one-time Prop 98 allocation of \$500 million to support competitive grant funds (\$450 million) and provide technical assistance and training (\$50 million), available for encumbrance until June 30, 2027, is provided for the Inclusive Early Education Expansion Program. These funds are to be used for infrastructure investments to support general and special education students within inclusive classrooms.

## Special Education

The 2022-23 budget proposals significantly build on special education funding augmentations and other changes provided over the past three years.

The Special Education Base Rate is first increased by the estimated COLA of 5.33%, and then augmented by \$500 million, resulting in a 2022-23 base rate of \$820 per ADA. This augmentation is sufficient to bring the statewide rate above the Marin County SELPA's rate which means we will be funded at this new base rate of \$820 per ADA for 2022-23. Allocations will be calculated at the LEA-level rather than the SELPA level, but funding will continue to flow through SELPAs. Each LEA's allocation will be based upon ADA reported for the current year, prior year or prior prior year (whichever is greater), multiplied by the Base Rate of \$820/ADA. SELPA base grant allocations will be the sum of all member LEA's individual allocations. Funding exhibits for each LEA will be provided by CDE and SELPAs must report the amount of funding generated by each member LEA no later than 30 days after receiving their apportionment.

Educationally Related Mental Health Services funding will be allocated directly to LEAs based upon current year second principal apportionment ADA for state funds, and prior year second principal apportionment ADA for federal funds, as the allowable use of these funds was changed in 2020-21 to include any behavioral or mental health service. The two existing special education extraordinary cost pools will be consolidated into a single cost pool to simplify the current funding formula. Finally, a special education addendum to the LCAP will be developed and implemented in 2024-25 to promote program cohesion by linking special education and general education planning and to provide parents of students with disabilities a defined role in the LCAP development process.

## Universal School Meals

Beginning in the 2022-23 school year, all public schools will be required to provide two free meals per school day to any students that request a meal. The January proposal for the 2022-23 budget provides additional resources to implement this program. LEAs eligible for a federal universal meal provision, will be required to apply for a provision by June 30, 2022 to reduce volatility in costs to the state and to maximize federal reimbursement for meals served.

In preparation for implementation, the administration proposes additional one-time funding for school kitchen upgrades and staff training.

- Additional \$596 million for universal access to subsidized meals (total \$650 million including \$54 million provided in the 2021 Budget Act)
- Additional \$450 million for school kitchen upgrades and training
- \$30 million for Farm to School Program
- \$3 million to expand regional California Farm to School Network (16 positions)
- Additional \$3 million (total \$4.017 million) to support the School Breakfast and Summer Meal Start-Up and Expansion Grant

School nutrition programs should be developing plans for infrastructure and equipment, staffing, training, and development of multiyear projections with financial assumptions.

## Summary

This edition of the Common Message serves to provide data and guidance to LEAs for fiscal planning and the development of their 2021-22 Second Interim Report and multiyear projection. The information provided for fiscal year 2021-22 and beyond includes the latest known proposals and projections to assist with multiyear planning. As each LEA has unique funding and program attributes and needs, it remains essential that LEAs continuously assess their individual situations, work closely with their county offices of education, and plan accordingly to maintain fiscal solvency and educational program integrity.

### State Revenues at Stratospheric Levels

posted January 5, 2022

State Budget hawks have long expected California revenues leading up to the release of Governor Gavin Newsom's fourth Budget proposal to exceed 2021 Budget Act projections. The Department of Finance's (DOF) December [Finance Bulletin](#) affirms these expectations, reporting that state year-to-date revenues for the current fiscal year exceed budget estimates by \$13.4 billion. November alone saw revenues nearly \$2.2 billion higher than monthly projections. Each of the "Big Three" taxes that generate the lion's share of state General Fund revenues are outperforming expectations by double-digit percentages, as shown below.

"Big Three" Taxes			
Year-to-date, in millions			
	Projection	Actual	Change
Personal Income Tax	\$35,786	\$45,220	\$9,434 (26.4%)
Sales and Use Tax	\$11,359	\$12,755	\$1,369 (12.3%)
Corporation Tax	\$3,331	\$5,181	\$1,849 (55.5%)

To highlight the significant growth, personal income tax revenues from the same period two years ago totaled \$31.47 billion. The total of \$45.22 billion in the current Finance Bulletin represents an increase of nearly \$14 billion, or 43%.

These revenues create a significant budget surplus that will heavily influence Governor Newsom's 2022 State Budget proposal, which is slated to be released on or before January 10, 2022. This bodes well for K-12 school agencies and community colleges because under the Proposition 98 minimum guarantee, K-14 public education stands to gain forty cents (\$0.40) of every unanticipated dollar that the state receives.

Robust state revenues come with some sobering (though not unexpected) data around headline inflation, which increased at the national level by 6.8% in November and in California by 5.6% in October. Inflationary pressures continue to occupy economists, monetary, and fiscal policymakers because it is proving to be persistent. Continued high consumer demand for goods juxtaposed by scarce supply and labor shortages threaten to protract current inflation trends. Moreover, the economic disruption of the omicron variant is exacerbating economic pressures.

On a more positive note, unemployment continues to abate. Both the U.S. and California unemployment rates decreased by 0.4%—to 4.2% and 6.9%, respectively—in November with most sectors, such as leisure and hospitality and manufacturing, gaining jobs. Rise in employment is accompanied by increases in personal income (due largely to wage and salary growth) of 3.4% and 5.2% in the third quarter of 2021 for California and the nation, respectively.

Housing supply and affordability issues persist in California. While October 2021 housing permits are up from 2019 and 2020 levels, median home prices remain nearly 12% higher than a year ago November, at \$782,480.

### LAO Analyzes Governor's 2022-23 State Budget

BY [ANJANETTE PELLETIER](#)

posted January 28, 2022

The Legislative Analyst's Office (LAO) released its [2022-23 Budget Overview](#) of Governor Gavin Newsom's State Budget proposal earlier this month, and followed up with a [presentation](#) to the Senate Budget and Fiscal Review Committee. There are some interesting perspectives in the LAO's analysis that could impact State Budget negotiations and K-14 education.

#### State Surplus and Spending Architecture

The LAO estimates that the state has a surplus of \$29 billion to allocate in the 2022-23 State Budget, which is \$8 billion more than Governor Newsom's estimates. The difference is largely because the Administration excludes investments that it deems obligated spending for items that the LAO sees as discretionary. The \$45.7 billion surplus that the Governor highlighted in his press conference unveiling his State Budget did not exclude year-over-year obligated state expenses, including its Proposition 98 obligations.

Despite differences in the size of the State Budget surplus, the LAO believes that the Governor's multiyear revenue assumptions are a reasonable "middle of the road" approach to forecasting. The Governor uses more cautious and conservative estimates when compared to the LAO's most recent projections. The Legislature could adopt higher revenue assumptions than the Governor's to develop its version of the 2022-23 State Budget over the coming months but doing so would limit the Legislature's ability to increase proposed investments as the state's revenue picture becomes clearer in May.

The Governor's State Budget allocates \$17.3 billion in one-time spending, anticipates a \$6.2 billion reduction in revenues, increases contributions to the state's rainy-day fund while also paying down other outstanding debts and liabilities. The LAO credits the Newsom Administration for its cautious multiyear revenue estimates but is concerned that the negative balance in the rainy-day fund in 2023-24 relies on too many risky assumptions. Therefore, the LAO encourages the Legislature to put more aside in state reserves than what is proposed by the Governor.

For K-12 and community colleges, the Governor's State Budget proposes a total of \$18 billion in new spending across an array of one-time and ongoing, as well as existing and new, investments.

#### State Appropriations Limit

How much the state can spend across the State Budget is being impacted by the State Appropriations Limit (SAL), which is the state’s equivalent to local Gann Limits. Across the three-year budget window, the LAO believes that the SAL will be a major consideration for the state. Consequently, the LAO encourages the Legislature to develop a plan for how the state can meet the SAL requirement across 2020-21 and 2021-22, and into 2022-23. The Legislature may have different priorities for addressing SAL and may want to use the state’s spending options on alternative excluded expenditures or other solutions. The LAO clarifies that some of the Governor’s proposals to spend excess revenue are already SAL-excluded expenditures—such as \$4.3 billion for transportation infrastructure, \$1.4 billion for green school buses (Proposition 98), and \$450 million for school kitchen upgrades (Proposition 98)—and therefore limiting the Legislature’s flexibility, as these expenditure amounts can only be reallocated to other SAL-related purposes, such as tax reductions.

### Proposition 98 Minimum Guarantee

Proposition 98 establishes a minimum annual funding level for schools and community colleges, commonly known as the minimum guarantee. The Governor’s State Budget includes substantial increases of \$17.7 billion to the minimum guarantee required under Proposition 98, reflecting higher revenues than prior estimates, growth in local property tax revenue, and an adjustment to “rebench” the guarantee for the expansion of transitional kindergarten.

Fiscal Year	Change From 2021 Budget Act Estimates
2020-21	\$2.5 billion (2.7%)
2021-22	\$5.3 billion (5.7%)
2022-23	\$8.2 billion (8.8%)
Proposition 98 Adjustments	\$1.6 billion
<b>Total Available New Funding</b>	<b>\$17.7 billion</b>

The LAO notes that \$10.6 billion of new funding is dedicated to ongoing investments while nearly \$7.2 billion is for one-time activities, which can be summarized in four main categories:

- Prior commitments: \$5.3 billion ongoing (expansion of Expanded Learning Opportunities Program, universal transitional kindergarten, school meals, rate increase for State Preschool and community college financial aid)
- Cost-of-living adjustment and workload adjustments: \$4.1 billion ongoing
- Infrastructure: \$2.3 billion one-time (electric school buses, kitchen upgrades, deferred maintenance, and funding for projects under the State School Facility Program), which are exclusions from the SAL
- College and career pathways: \$1.5 billion one-time

### LAO Recognizes Local Capacity Limitations

The LAO acknowledges that the confluence of new programs and initiatives, with their unique requirements and the ongoing impact of the health pandemic on the continued provision of in-person instruction, is impacting the capacity of K-12 school agencies and community college districts to implement them well. Thus, the LAO suggests gathering information on the impact, capacity challenges, and existing needs of the systems via oversight of implementation of new and existing requirements, prior to determining the Legislature's approach to allocating new Proposition 98 resources. This concern with capacity overload is a theme in the LAO's analysis and is reflected in several other recommendations to support fewer new initiatives beyond education across the State Budget.

In summary, the LAO's analysis of the Governor's 2022-23 State Budget is that it contains many positive investments, meets prior-year commitments, and uses cautious but reasonable revenue assumptions. However, the LAO offers several considerations for the Legislature to build on the Governor's State Budget proposal, including reinforcing the state's rainy-day fund and ensuring state funds are used optimally when paired with anticipated federal revenue.

## Comments

- **Develop a Plan for Meeting the Current Year SAL Requirement**
- **SAL Will Continue to Constrain the Legislature's Flexibility in Budget Year**

## Comments on Spending Proposals Overall

---

***Focus on Ensuring Success of Recent Initiatives.*** Given the scale of last year's commitments, we recommend the Legislature: (1) dedicate the early part of the budget process to overseeing their implementation, and (2) be cautious about creating additional new programs as well as expanding the scope of existing programs.

***Consider Longer-Term COVID-19 Planning.*** As COVID-19 likely will remain a public health and economic challenge in future years, we recommend the Legislature closely consider the extent to which the Governor's proposals properly prepare the state for this reality.

# Comments on Programmatic Proposals

---

## Focus on a Few New K-14 Programs Responding to Clearly Defined Problems

- School and community colleges are implementing many new programs and requirements amidst ongoing disruptions caused by the pandemic, and their capacity to implement more programs is likely limited.
- We recommend funding fewer new programs and prioritizing those that address underlying problems that cannot be addressed with existing programs.

## Legislature Has Better Budget Options for the Universities Than Compacts

- The Governor's recently announced compacts did not involve the Legislature in their development, are not well connected to core university cost drivers, and lack clear enforcement mechanisms.
- We encourage the Legislature to focus on its spending priorities, together with the universities' anticipated cost increases.

## Governor Proposes More Workforce Development Items on Top of Over 20 Items Last Year

- Can so many efforts be effectively launched at once?
- What are the specific problems the state aims to solve with all of these efforts?
- How do the myriad proposals work together as a solution to those problems?

## Consider Whether Climate Change Proposals Align With Legislative Goals

- Consider whether the proposals are likely to be the most cost-effective set of policies and programs to meet its climate change goals, particularly given the significant funding recently provided for similar activities.

# Comments on Programmatic Proposals

---

*(Continued)*

## **Assess Infrastructure Proposals in Context of Priorities and Anticipated Federal Funds**

- Key considerations include: whether the proposals are aligned with legislative priorities and how state funding can best complement the anticipated federal funds from the Infrastructure Investment and Jobs Act, particularly for water, energy, and transportation.

## **Ongoing Oversight of Major New Investment in Public Health Infrastructure Essential**

- Seek the administration's clarification on how the \$300 million ongoing spending proposal for local and public health staffing and general support ties to findings from a legislatively required pandemic response review intended to identify public health system gaps and problems.
- Annual updates to the Legislature on the use of, and outcomes achieved from, this funding would facilitate legislative oversight.

## **Ensure Prior Housing and Homelessness Programs Are on Solid Footing**

- Ensuring that previously authorized housing and homelessness efforts are adequately supported and can be maintained over time will be important.
- While the concept of addressing short-term needs while previously funded long-term housing is completed may have merit, whether the short-term options proposed by the administration are most effective is unclear as key details are still under development.

## Comments on Budget Condition

---

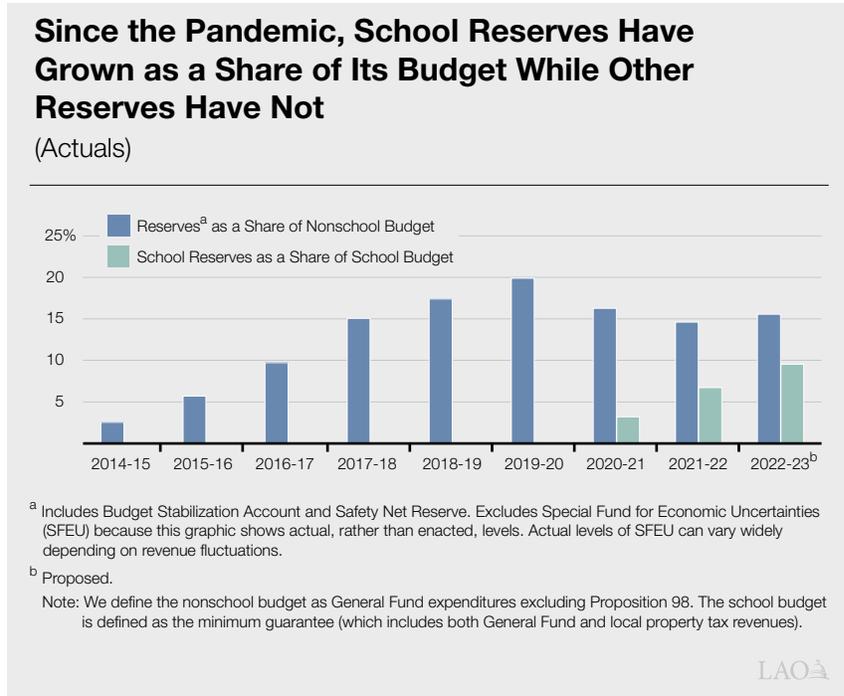

***Multiyear Revenue Projections Are Reasonable.*** Whereas we often noted previously that the administration's multiyear revenue estimates appear to be fairly cautious, we would characterize this year's estimates as a middle of the road among potential outcomes. While building a spending plan around middle of the road assumptions is entirely reasonable, it also calls for allocating additional resources to plan for future budget shortfalls.

***New Spending Proposals Exceed Administration's Estimates of the Budget's Capacity in Future Years.*** The administration's multiyear estimates reflect negative balances in the Special Fund for Economic Uncertainties (SFEU) in 2023-24 (and throughout the rest of their forecast) due to proposed spending exceeding estimated resources. While the administration is not required by law to plan for future positive balances in the SFEU beyond the budget year, doing so is prudent.

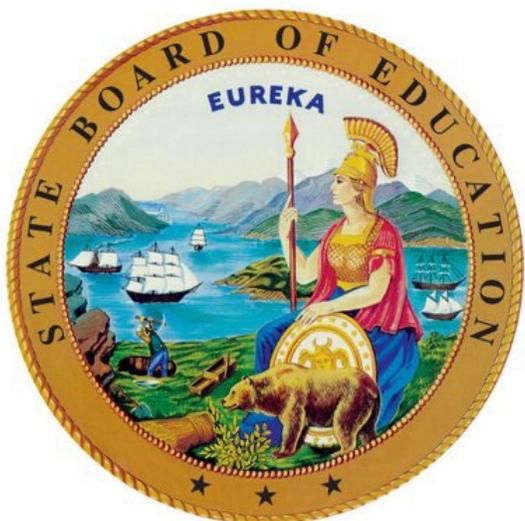

# Comments on Budget Reserves

## General Purpose Reserves Remain Below Pre-Pandemic Levels

**Strongly Consider Building More Reserves.** More general purpose reserves are warranted. While we and the administration have acknowledged the trade-off between building reserves and the state’s ability to meet its SAL requirements (because reserve deposits are not excluded spending), the budget has the capacity to make additional reserve deposits.

# Looking Ahead

- FY2022-23 includes challenges for LEAs
  - The two-year employer contribution rate rollback for CalSTRS and CalPERS expires at the end of 2021-22 and contribution rates return to / catch up to their pre-pandemic schedule of increases
  - Unduplicated student count impacts from universal meal program and higher independent study enrollment
  - SB 328 (2019) is effective in 2022-23 re late school start time impacts transportation, athletics, after school programs, food service
  - Inflationary pressures from historic increases in CPI – up 7% in 2021

## FISCAL REPORT

PUBLIC EDUCATION'S POINT OF REFERENCE FOR MAKING EDUCATED DECISIONS

### State Revenues Look Promising

**BY PATTI F. HERRERA, EDD**

Copyright 2022 School Services of California, Inc.

posted February 22, 2022

In its February [Finance Bulletin](#), the Department of Finance (DOF) issued a promising state revenue outlook but cautions against too much optimism before May when we will have a more accurate account of tax collection revenues.

The cautionary tone is due primarily to corporation tax revenues that can and likely will be offset by personal income tax credits, which will moderate net state revenues. The other reason for caution is the broader impact of historic inflation on the U.S. and California economies. On this latter issue, U.S. inflation grew to 7.5% in January 2022 after Governor Gavin Newsom issued his 2022-23 State Budget proposal. Many anticipated higher inflation, which had already reached 7% in December 2021; however, the DOF reports that the latest inflation figure represents the fastest increase since February 1982. According to the DOF, U.S. inflation almost quadrupled from 1.2% in 2020 to 4.7% in 2021 with many factors contributing to it, including increased transportation and housing costs.

Relative to employment, national trends continue to be better than the state with nearly every industry sector having recovered from job losses at the start of the COVID-19 pandemic and four sectors exceeding pre-pandemic employment levels. California, by contrast, has recovered just 71.7% of the nonfarm jobs lost in March and April 2020 with only two sectors (professional and business services) fully recovering to their pre-pandemic February 2020 levels.

To the issue that we track most carefully through the monthly bulletins, 2021-22 year-to-date state revenues are outpacing estimates assumed in the 2022-23 Governor's Budget forecast by \$15.95 billion. Again, the DOF cautions that current estimates could be moderated later by less personal income tax revenues, which we will not know until more complete tax return data are available, or after April 15. This is because of the nearly \$16 billion in unanticipated revenues, \$6.2 billion is due to higher revenues from a corporation tax component that allows some taxpayers to reduce their federal tax liability. Every dollar received by this corporation tax component generates an equal dollar of personal income tax credit. Thus, when California residents file their 2021 tax returns, we will have a much clearer picture of how impactful this tax policy has on personal income tax revenues. However, as it stands, state revenues from the big three revenue sources are provided in the table below.

<b>“Big Three” Taxes</b>			
<b>Year-to-Date (in millions)</b>			
	<b>Projection</b>	<b>Actual</b>	<b>Change</b>
Personal Income Tax	\$76,711	\$85,886	\$9,175 (12.0%)
Sales and Use Tax	\$17,919	\$17,696	-\$223 (-1.2%)
Corporation Tax	\$10,003	\$17,998	\$7,995 (79.9%)

Notwithstanding the DOF’s caution, state revenues will be higher than the Governor’s January estimates when he issues his revised State Budget in May. It’s just a question of by how much. Since Test 1 is the operative test for the Proposition 98 minimum guarantee for 2021-22 and 2022-23, K-14 education funding will increase by 40 cents of every new, unanticipated state dollar.

Dear Ms. Sellers,

Our office has completed its review of the Larkspur-Corte Madera School District's first interim budget report for 2021-22, in compliance with the provisions of Education Code 42131(a)(2). The Governing Board approved the budget with a positive certification that the district will be able to meet its financial obligations for the current and subsequent two (2) years.

The Code requires the County Superintendent to approve or change interim report certifications after examining the report to determine if it complies with the standards and criteria established pursuant to Education Code 33127 and to determine if the first interim budget will allow the district to meet its financial obligations during the current fiscal year and is consistent with a financial plan that will enable the district to satisfy its multi-year financial commitments.

**Based upon our review, the Board's POSITIVE certification of the first interim budget report has been approved, however, the district's projected deficit spending is unsustainable and the resulting decline in ending fund balance is cause for concern. We recommend the district take the necessary steps to develop and implement a deficit reduction and reserve stabilization plan.**

### 2022-23 GOVERNOR'S BUDGET PROPOSAL

On January 10<sup>th</sup>, the Governor released his 2022-23 budget proposal with an increase of \$16.2 billion in Proposition 98 funding for schools, for a total of \$102 billion. California's economy has continued to outpace all expectations and the Governor's 2022-23 budget proposal is able to provide an ongoing increase in education funding as well as take advantage of considerable one-time funds.

The Governor's 2022-23 budget proposes a 5.33% cost of living adjustment (COLA) to the Local Control Funding Formula (LCFF) and all other K-12 education programs that are statutorily adjusted for COLA including special education and pre-school. Special education base funding is also augmented by an additional \$500 million, and funding is calculated at the local educational agency (LEA) level instead of the Special Education Local Plan Area (SELPA) level. The Governor's proposal recognizes the hardship of a statewide decline in student enrollment and proposes increasing ongoing funding by \$1 billion to fund attendance on the better of current year, prior year, or a three-year average. The budget proposal also recognizes the need for

1

Larkspur-Corte Madera School District  
2021-22 First Interim Review

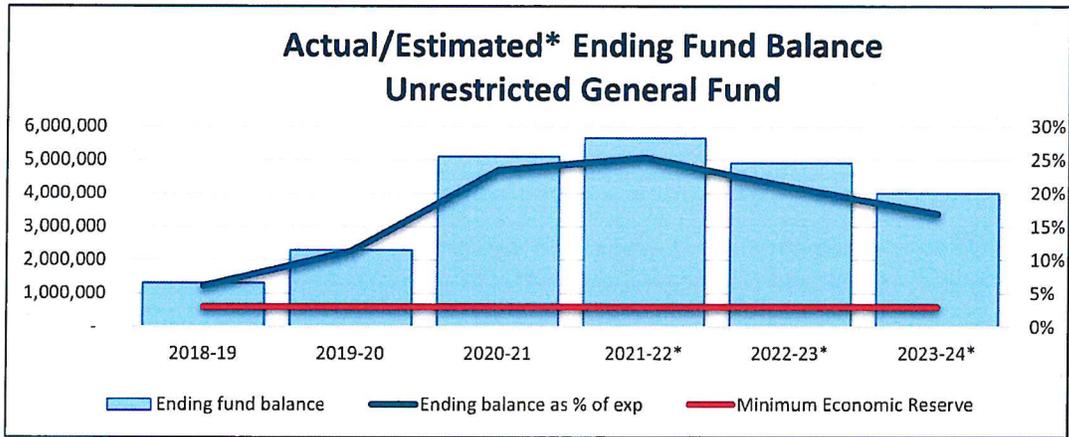

greater flexibility in attendance accounting to allow for virtual learning as the pandemic has continued to disrupt in-person learning.

Last year’s 2021-22 budget act introduced three (3) new programs with the intent to provide full funding gradually over the course of several years as conditions allow. The Governor’s budget proposes funding to implement these programs in 2022-23, increasing ongoing funding for the Expanded Learning Opportunities Program by \$3.4 billion, fully funding the Universal Meals program with \$650 million, and the phase-in of transitional kindergarten by \$640 million while allocating an additional \$383 million in Proposition 98 funding to fund the cost of reducing the student to staff ratio. The Governor is additionally proposing using one-time revenues for one-time grants. Over the next several months more information will be forthcoming as the Legislature weighs in on the Governor’s proposal. Although the Governor’s Budget proposal uses one-time funds for one-time spending commitments, the one-time nature of these funds is very challenging for school districts to manage as they do not readily support existing and ongoing programs.

**BUDGETARY POSITION FOR LARKSPUR-CORTE MADERA SCHOOL DISTRICT**

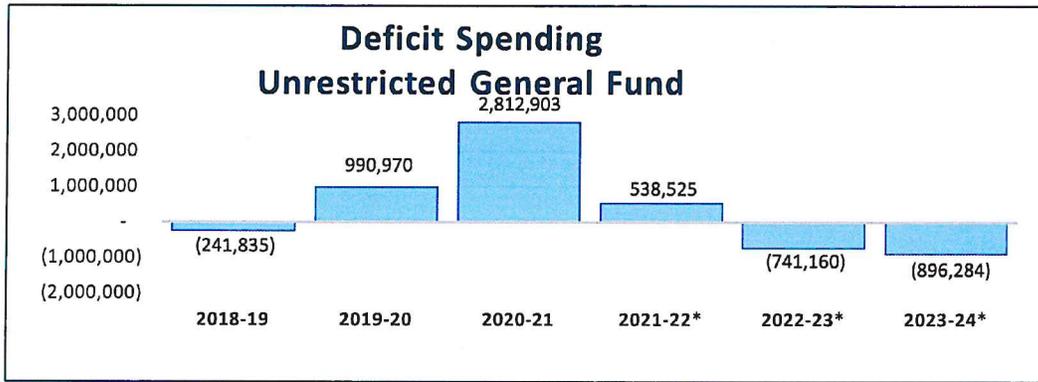

The district’s first interim budget and multi-year projection reflects a significant improvement in budgetary ending balance when compared to the adopted budget largely due to an improvement in ending position when closing the accounts for 2020-21. This improvement appears to be one-time in nature as the district’s projected deficit spending in the multi-year projection has increased slightly.

The following graph depicts the district’s estimated ending balance as reported in the first interim budget and multi-year projection for the unrestricted general fund with both the state required minimum reserve and the district’s actual reserve as a percentage of total general fund expenditures. The district’s ending balance meets the minimum required reserve requirement for the current and both subsequent years, nonetheless, the district’s reserves are declining at an unsustainable rate.

**OPERATING DEFICITS**

The district’s first interim budget and multi-year projection reflects operating deficits in the unrestricted general fund as displayed in the chart that follows.

The cumulative impact of this projected deficit spending is a 22% decline in fund balance over the current plus two (2) subsequent years, leaving the district with estimated reserves of \$4 million or 17% of general fund expenditures as of June 30, 2024.

While some deficit spending may be a result of one-time costs from prior year funding sources, ongoing structural deficits threaten a school district's future educational programs. Districts that wait too long to address and correct structural deficits are forced to make dramatic corrections all at once. In contrast, carefully planned and phased-in structural corrections lessen the impact on children.

#### RESERVES

The district maintains the state-required minimum reserve for economic uncertainty of 3% in the current and two (2) subsequent years. In addition, we note the district maintains a Board reserve for economic uncertainty of 6% for a total reserve of 9% in all three (3) years of the budget and multi-year projection.

All school districts, whether state aid or community funded, are well advised to establish higher than minimum reserves in order to provide for the financial flexibility to absorb unanticipated expenditures without significant disruption to educational programs, cash flow deferrals and general economic uncertainties. Higher than minimum reserves allow the district to better ensure a consistent and stable program offering for students.
